SUBJECT: FALL FLUSHING PROGRAM

Dear Sir or Madam:

Summit Township will begin its FALL fire hydrant flushing program on September 16, 2019

Hydrant flushing will take place between 8:00 a.m. and 4:30 p.m. Monday - Friday and is expected to take three weeks to complete

Spring Arbor Township will begin September 30, 2019

Hydrant flushing will take place between 8:00 a.m. and 4:30 p.m. Monday - Friday and is expected to take one week to complete.

Napoleon Township will begin September 23, 2019

Hydrant flushing will take place between 8:00 a.m. and 4:30 p.m. Monday - Friday and is expected to take one week to complete.

Flushing is necessary to wash iron and other sediment out of the water mains. This sediment does not affect water quality, but can cause water to become discolored.

The water is safe to drink and discoloration often disappears within a short time.

Residents are advised to not wash clothing while lines are being flushed in their area and for motorists to slowdown and use caution if driving past a hydrant being flushed.

For more information, call 517-788-4113. Please visit Summit Township website to see daily progress.

Sincerely

Eric Trader
